

KNAUDER'S BEST

THE SNIFFSTAR FROM KNAUDER'S BEST

A must-have for dogs - The sniffstar, the new highlight for experienced scenters!

The sniffstar's something you can really give a good shake! Cunningly hidden pockets and pouches prevent treats from falling out. This makes the sniffstar a unique tool for any dog-training session. By using the sniffstar as an external reward, the additional sniffing required increases skill development. Searching for treats in the movable "arms" represents a real challenge for your four-legged friend. This gives your shared interaction even greater meaning, and the bond of friendship and trust is strengthened significantly. Thanks to the sniffstar's easy-care design, it's also perfect for outdoor use, which makes it highly valued for dog sports training purposes, too. It goes without saying that we only use high-quality materials for the sniffstar, guaranteeing durability. Highly flexible fabrics and reinforced seams ensure trouble-free playing fun. All of our product innovations at KNAUDER'S BEST are carefully executed high-quality toys tailored to the needs of your pet, and are explicitly recommended by experts.
